Dr. L. A. Sagan
Palo Alto Clinic
Palo Alto, California

Dear Dr. Sagan:

I refer to my letter of September 15, 1969, to Dr. Arthur Tamplin, Director of the Information Section, Division of Biology and Medicine, Lawrence Radiation Laboratory, University of California, concerning Dr. Joshua Lederberg's statement that you are now engaged in taking Dr. Sternglass' arguments apart, point by point. I would be grateful to have copies of the documentation on which this fearful dismemberment is now under way. I would also be grateful if you would send copies to Dr. Lederberg, so that we can deal with a canonical text.

In the meantime, while you are fabricating your technical papers, I would be grateful if you would supply me with copies of the scientific documentation on which Dr. Tamplin's estimate of fetal deaths from radioactive fallout is based.

Sincerely,

C. D. Calsoyas
